

What will you MAKE today?

Agamograph

An Agamograph, named after Yaacov Agam their creator, is an art piece made up of multiple images. The piece changes due to the viewer's perspective.

“*Yaacov Agam* is an Israeli artist best known for his pioneering of Kinetic Art. Employing light and sound to provide a unique sensorial experience for the viewer, *Agam* melded formalism and mysticism. His lenticular prints, or Agamographs, made illusory images appear depending on the audience's viewpoint.” -www.artnet.com

There are a few different ways to create your own Agamograph:

- Made of TWO images, folded like an accordion

- Made of THREE images, folded to yield a valley, and mountains (side A and B)

Both versions can be custom made, made using a template, or color and fold a printable one.

Supplies:

- Images- photos, drawing/paintings, or template to color

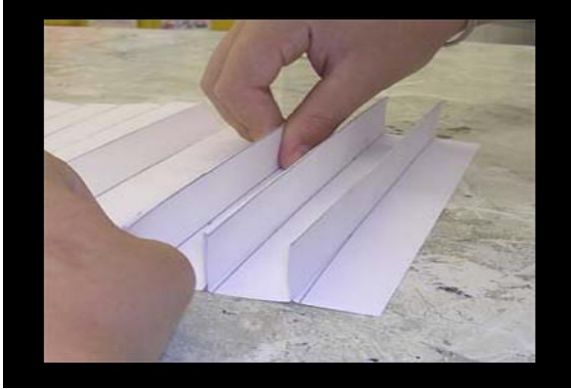

- Crayons, markers, or pencils

- Ruler (if not using a template)

- Scissors (if cutting and pasting)

- Glue (if cutting and pasting)

Ex- Three image Aganograph template
Agamograph (cont'd)

Ex- Two image Aganograph

Process :

Two Images

- Cut image "A" and "B" into 1 inch strips – keep in order!
- Measure and mark 1" sections along length of backing paper
- Mark sections- alternate "A" and "B"
- Glue strips of images in order alternating A and B
- Fold like and accordion on one inch marks
- Hang up and enjoy!

Three Images

- Cut image "A", "B", and "C" into 1 inch strips, keep in order!
- Measure and mark 1" sections along length of backing paper
- Mark sections- alternate "A" and "B" and "C"
- Glue strips of images in order alternating "A" and "B" and "C"
- Fold so sections "A" and "B" are standing up, and "C" is flat
- Hang up and enjoy!
