

# What Will You Make Today?

## Origami Jumping Frog!

### Directions:

Start with a square piece of paper, at least 7"

Follow the picture directions below

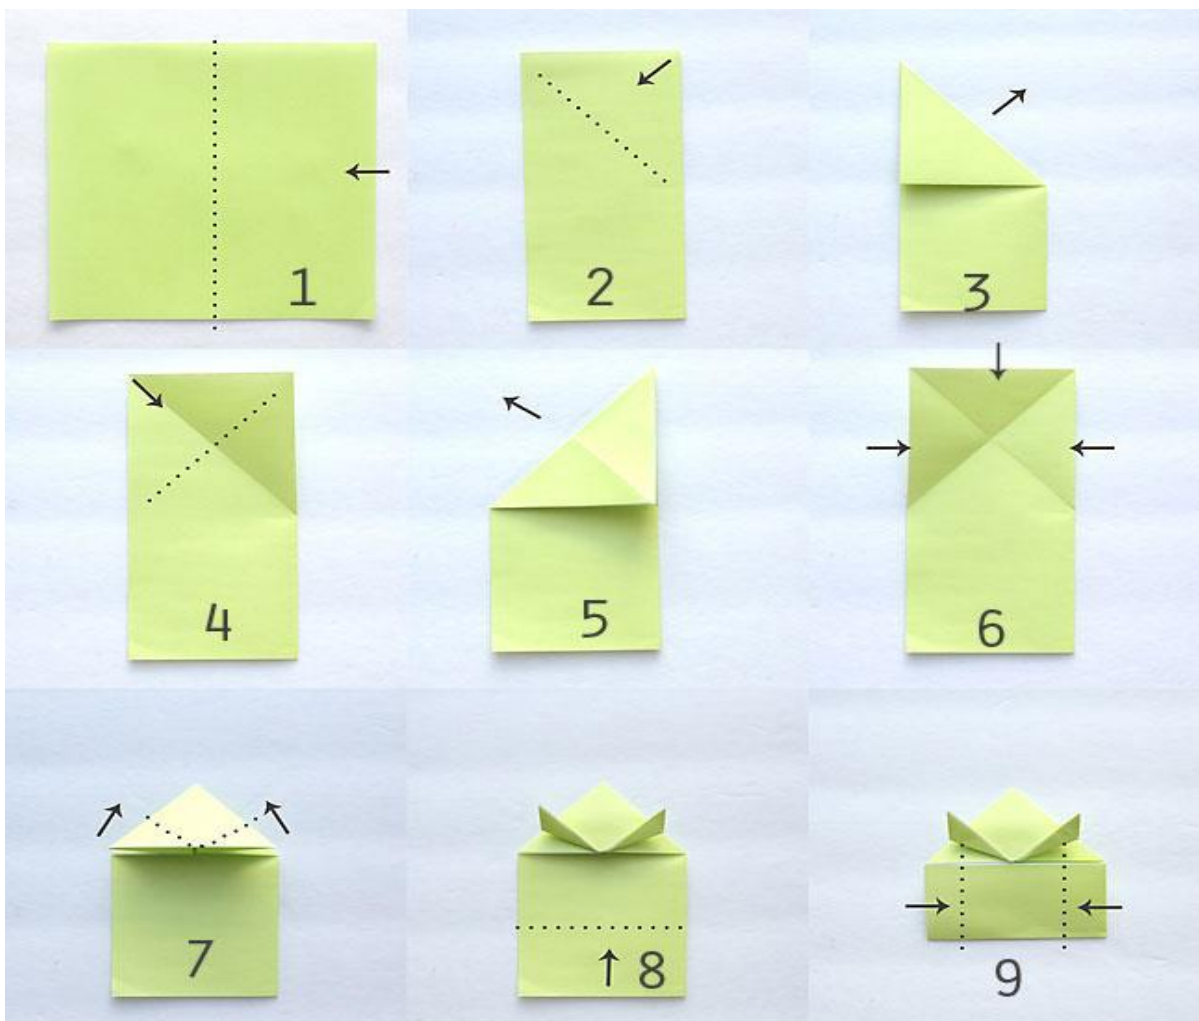

### Biology:

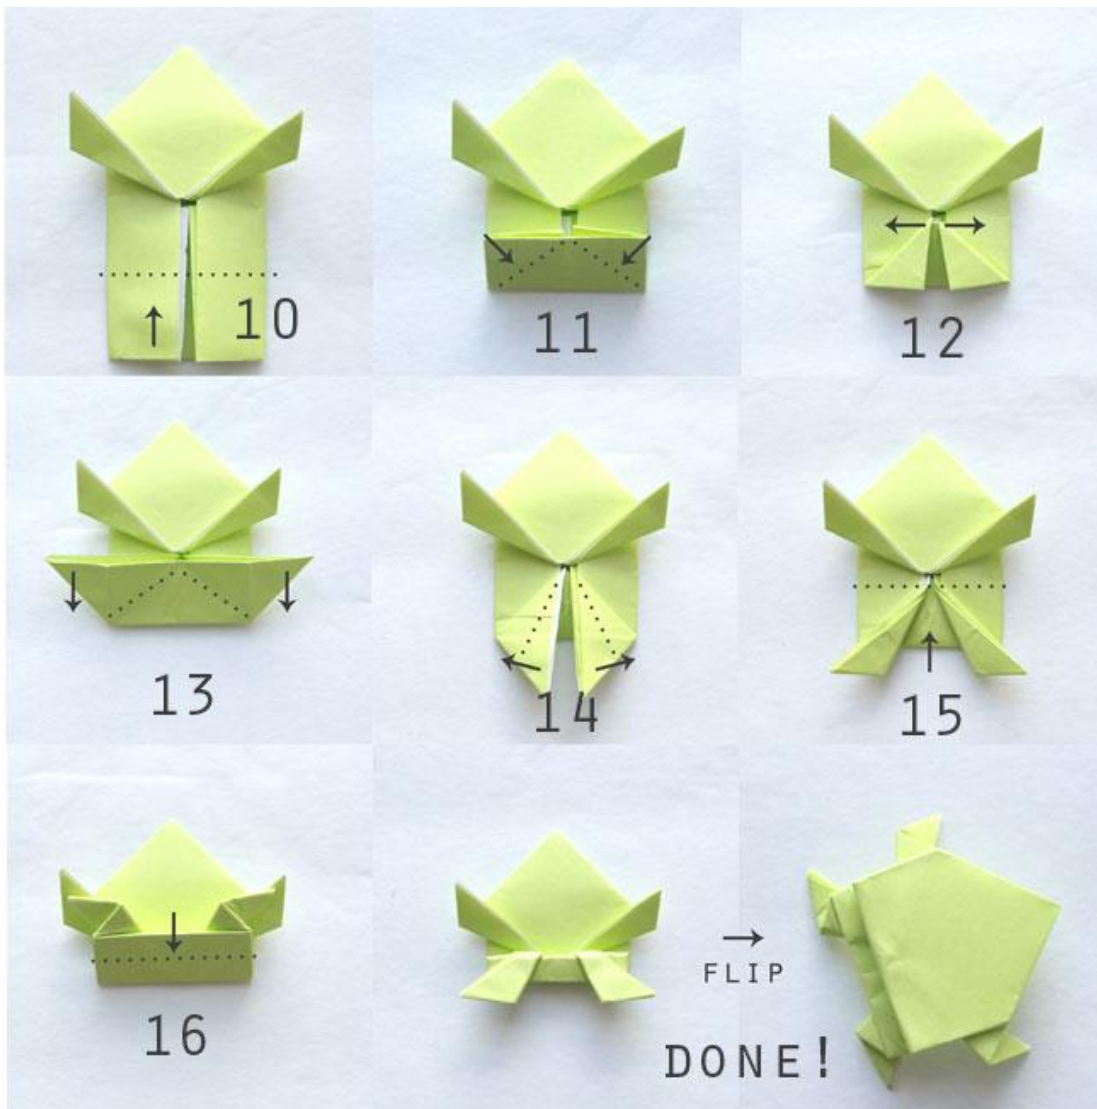

What type of frog do you want to make? What are the marking characteristics of it?

### Physics:

What makes the frog jump?

Frog races: Who's frog won? Why?

**Potential Energy**- the energy possessed by a body by virtue of its position relative to others, stresses within itself, electric charge, and other factors.

**Kinetic Energy**- energy which a body possesses by virtue of being in motion.

Types of frogs
