

Make Your Own Inchworm

Materials:

- Pipe cleaner
- Scissors
- Ruler
- Pencil

Procedure:

1. Wrap your pipe cleaner around a pencil.
2. Slide your pipe cleaner off the end of the pencil.
3. Have an adult help the student/child measure and cut the pipe cleaner so it is exactly 1 inch long.
4. If the student/child wishes to, they can decorate their inchworm.
5. Have fun measuring all kinds of stuff!

Fun Challenges:

1. Measure your foot. How many inchworms long is your foot?
2. Measure your height. How many inchworms tall are you?
3. Measure your kitchen table. How many inchworms long is the table?
4. Find other things around your house to measure with your inchworm!

Standards Covered:

Ohio Standards:

K.PS.1: Objects and materials can be sorted and described by their properties.

K.MD.1 Identify and describe measurable attributes.

1.MD.2 Express the length of an object as a whole number of length units by laying multiple copies of a shorter object (the length unit) end to end.

2.MD.1 Measure the length of an object by selecting and using appropriate tools such as rulers, yardsticks, meter sticks, and measuring tapes.

Pennsylvania Standards:

CC.2.1.PREK.A.2: Count to tell the number of objects.

CC.2.1.K.A.1: Know number names and write and recite the count sequence.
